

ADMINISTRATIVE MANAGEMENT, BAS

The Bachelor of Applied Science in Administrative Management provides career advancement opportunities for individuals employed (or seeking employment) in a wide variety of corporate, business and office environments. Like all BAS programs, the Administrative Management major builds upon the technical education acquired through an associate degree in a career field. For the Administrative Management major, the associate degree or career courses should be in an office- or business related field, such as office administration, secretarial studies, merchandising, paralegal studies, or business data processing. We offer the following concentrations in the Administrative Management major: Applied Criminal Justice, Organizational Leadership, and General Studies.

Program Learning Outcomes

Graduates of this program will be able to:

- Critical thinking and research: Students will be able to identify and describe key organizational principles and will be able to analyze business situations in a critical manner from practice gained in progressive business problem-solving situations.
- Ethical decision making: Students will recognize the legal and ethical considerations that impact business administration and will demonstrate their application in business problem-solving situations.
- Business acumen: Students will identify key concepts necessary for career success in today's global economy and will demonstrate their application in professional contexts.
- Workplace technology skills: Students will use information technology systems to achieve course requirements and to make solid business decisions.
- Management and supervisory skills: Students will recognize and apply supervisory and management concepts at levels required for effective performance in professional contexts.

Requirements

Program Requirements

- Student must have minimum overall GPA (as defined by Banner) of 2.0 at time of application
- The student must satisfy one of the three career course requirements prior to being admitted to BAS program:
 - Must have an AAS or AAT (Career Associate Degree) from a regionally accredited college or university with 38 transferrable technical or career credit hours

OR

- Must have at least 38 semester credit hours of professional/technical courses from a regionally accredited college or university with a grade of C or higher and 21 of these 38 hours must be in one professional/technical area. If the student has 30-37 professional/technical courses, he/she will need to take additional courses to satisfy the 38 hour requirement; the student's advisor will recommend appropriate courses.

OR

- Must have at least 12 semester credit hours of military courses from the U.S. Military. If the student has less than the 38 transferrable technical/career/military courses, he/she will need to take additional courses to satisfy the 38 hour requirement; these courses can be satisfied from a combination of additional technical or career courses, military credit and/or lower division academic credit. The student's advisor will recommend appropriate courses. Please note that students cannot use lower division academic courses to satisfy both the block credit (38 hours) and core curriculum (Areas A-F) requirements. Therefore, students may need to take additional courses to satisfy their core curriculum requirements.

OR

- Must have at least 360 out-of-class clock hours of state or professional approved certification work which is equivalent to 12 academic credit hours. The department can only accept a maximum of 1,080 out-of-class clock hours or 36 academic credit hours. To meet the 38 academic hour requirement for entrance into the BAS program, students will need to take additional courses which can be a combination of technical or career courses, military credit and/or lower division academic credit. The student's advisor will recommend appropriate courses. Please note that students cannot use lower division academic courses to satisfy both the block credit (38 hours) and Core IMPACTS and Field of Study requirements. Therefore, students may need to take additional courses to satisfy their core curriculum requirements.

Code	Title	Credit Hours
Core IMPACTS		42
All core curriculum recommendations are shown under the Core IMPACTS section of the Undergraduate Graduation Requirements. (https://catalog.clayton.edu/graduation-requirements/undergraduate-graduation-requirements/core-curriculum/#nonsciencemajorstext)		
Field of Study - Administrative Management		38
Program specific courses are taken as part of the career associate degree at Clayton State University or another institution.
