

BACHELOR OF SCIENCE IN COMPUTER SCIENCE (BSCS) AND MASTER OF SCIENCE IN DATA SCIENCE (MSDS)

Program Requirements

The Computer Science and Information Technology Department and the School of Graduate Studies offer a combined Bachelor's and Master's degree in which students earn a Bachelor of Science in Computer Science and a Master of Science in Data Science within five-years.

Entrance requirements for BSCS/MSDS degrees are:

- 3.0 GPA
- Acceptance into Graduate School

Freshman – Junior Standing Requirements

Students will complete the course requirements for undergraduate BSCS (<https://catalog.clayton.edu/academic-catalog/information-mathematical-sciences/computer-science-information-technology/computer-science-bs/>).

Senior Standing Requirements

Students will complete up to 6 credit hours of approved graduate-level CSCI courses from MSDS curriculum along with their remaining undergraduate coursework.

The student must submit the following to Graduate Admissions during their senior year: application, application processing fee, and transcripts from all institutions attended. Three letters of reference are also required.

Suggested Course Sequence

Please Note: This is a suggested course sequence and assumes a starting freshman with no prior college credit who intends to complete their degree in four years. Students should consult with their academic advisor and review the course prerequisites and minimum grade requirements as seen in the Academic Catalog.
