

FINANCE (FINA)

FINA 5100. Corporate Finance for MBA (3)

This course will apply tools, techniques and theories of finance to actual business and investment decisions with consideration to ethical issues. Students will apply tools and techniques to analyze a company's financial position relative to the industry, apply time value of money concepts to business cash flows, evaluate the acceptability of a short-term and long-term financial decision, and understand the relationship between capital structure, risk, and the cost of capital. A variety of pedagogical vehicles will be used including problem solving, case studies, lectures, and projects.
