

INTERDISCIPLINARY STUDIES (IDST)

IDST 1105. Intro Interdiscip Studies (3)

This course provides an introduction to Interdisciplinary Studies, a field that encourages the integration of knowledge and methods from different disciplines to address complex problems and questions. Students will explore the history, theories, and practices of interdisciplinary studies, and learn how to apply interdisciplinary approaches to real-world issues. Students will also explore what it means to major in Interdisciplinary Studies and what they can do with a degree in Interdisciplinary Studies.
