

GRADUATE RESIDENCY REQUIREMENT

A minimum of twenty-four (24) graduate credit hours in residence at Clayton State University is required for graduation. Residency refers to courses (including online courses) offered by Clayton State University. Transfer courses (including correspondence courses, on-line courses, transient courses, or cross- registration courses) are not considered to be in residence. (In this context, “residency” has nothing to do with a student’s residence for fee payment purposes.)
